It's Baaaack!

The new year always brings exciting and new things, but to start off 2023, we are bringing back an old event that has been on hiatus since 2020 - the Spayghetti and No Balls Dinner! Who doesn't like a nice spaghetti dinner (pasta and sauce from Olive Garden!) with wonderful people and a bonus of helping the Dunn County Humane Society with the animals in their care? All of the proceeds from the Spayghetti dinner go into our Spay and Neuter Fund to help offset the cost of spaying and neutering the hundreds of unaltered strays that come to DCHS each year.

SPAY-ghetti & No Balls Fundraiser Dinner

Tuesday, February 28th from 4-7 pm
Christ Lutheran Church
1306 Wilcox St., Menomonie

Pet over-population is a big problem in our community. The proceeds from this fundraiser help offset costs of spaying and neutering the hundreds of unaltered strays that are brought to DCHS each year.

This is the 8th Spayghetti dinner that has been hosted by Christ Lutheran Church in Menomonie - our first one was way back in 2013 and we were unable to have the dinner in 2021 and 2022, so 10 years and 8 events 😊. Dinner will be served from 4-7 pm and tickets are available in advance at the QR code on the flyer or at the door. We hope to see you there!

Mission Statement

The Dunn County Humane Society (DCHS) is dedicated to improving the lives of companion animals in our community and finding permanent and loving adoptive homes for the animals in our care. DCHS promotes the humane treatment of animals and operates as a no-kill facility, a philosophy that has been with the organization from the beginning. We do not forfeit the life of one animal to make space for another. All incoming animals are evaluated, medically treated and rehabilitated when possible. DCHS is a 501(c)(3) non-profit organization that relies on the good will and generosity of individuals and corporations.

Manager's Minute

Lynnette
Bryant-Thompson

Questions, questions, we all have questions, especially when it comes to our pets. Wouldn't it be wonderful if our animals could talk and let us know why they do the things they do. In most cases we have to figure it out on our own or rely on help from the professionals. I recently ran across several unique questions (and answers) about dogs that I thought you might find interesting. For more, visit [Traverse Mountain Pet Care](http://TraverseMountainPetCare.com) at bit.ly/10dogquestions!

Did You Know...

Why do dogs have whiskers?

Whiskers are modified sensory organs, mostly tactile in function. Touch, air, and vibration stimulate whiskers and send that message to the brain. This likely helps with low light movements during running and hunting. Whiskers also help dogs communicate fear or confidence during encounters with other dogs.

Why do dogs chase their tails?

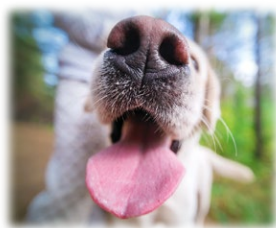

Some tail chasing can be normal play or grooming behavior. It can also be a response to an injury. Consistent tail chasing, however, is abnormal and can fall into behavioral concerns of attention-seeking activity or OCD (obsessive compulsive disorder). These abnormal behaviors are likely reinforced by an endorphin release causing a pleasure response in the brain.

Why do dogs bury bones?

This behavior is less about playtime and more about instinct. Before becoming domesticated, wild dogs would roam their territories in search of food and water. Because meals were

unpredictable and often scarce, times when food was in surplus resulted in a need to guard and bury excess supplies. This tactic not only ward off scavengers but would also naturally preserve and age the meal by keeping it in a cool location away from sunlight.

Why are dogs' noses wet?

A dog's sense of smell is one of their most remarkable features, and a dog's wet nose helps to amplify this sense of smell. By excreting a thin layer of mucous across their nose, dogs are able to better absorb the scents they encounter in their environment. Once absorbed into the mucus, a dog can then lick their nose to remove the scent and bring it to the olfactory glands on the roof of their mouths. In addition to amplifying a dog's sense of smell, a wet nose also helps them to regulate their body temperature. Because dogs lack normal sweat glands throughout their body, they instead rely on secretion of sweat through the pads of their feet and their nose to help cool down.

DCHS Volunteers are the Best!

The volunteers here at the Dunn County Humane Society are all so amazing that we first want to say thank you to each and every one of them. Whether it is at the Rummage Sale, Golf Scramble, with the dogs and cats, hauling the can trailer, mowing the grass or any other of the countless ways to support DCHS, all of these folks truly help the shelter run as smoothly as it does.

Each year volunteers are eligible for the President's Volunteer Service Award, and this year we have 10 volunteers who achieved the bronze award and 1 who achieved the silver award. The bronze award is given to volunteers who have logged 100-249 hours in a calendar year, and the silver award is awarded to those logging 250-499 hours, so these are quite the achievement. If you happen to be sure to congratulate these folks if you see them

Getting to Know You!

Our residents got wind of the staff having their own section in the newsletter and thought they should have a turn. Our first featured resident is Poppy!

Favorite food? *Farmer's Dog (wet food) - have you tried it?? Soooo yummy! Cheese and Hot Dogs are tasty too*

Favorite toy? *Rawhides - I don't understand why my friends here don't want me to take them outside to play with, lol!*

Favorite place?

Bed...who doesn't love a nap (or 2 or 3)?

Favorite thing to do?

Zoomies and tug with my friends here

Describe yourself in 3 words?

Queen (duh!), loyal, bouncy - who needs anything else?

What is your favorite movie?

The Shaggy Dog...hmm, I wonder what it would be like if I turned into a human!

Favorite book?

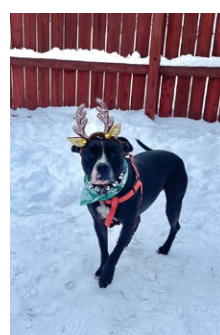

Because of Winn Dixie - what a tearjerker

Favorite color?

Red, check out the harness

Cuteness on a scale of 1-100?

Omg, you have to ask?? I would definitely be a 120!
